Technical Skills

Data Analysis & Visualization: Power BI, Tableau, Excel (Data Cleaning, Pivot Tables, Dashboards)

Databases: SQL, MySQL, MongoDB

Programming: Python, C, C++

Libraries: Pandas, NumPy, Scikit-learn

Tools & Platforms: Jupyter Notebook, Git, Linux, UiPath

Web Technologies: HTML, CSS, JavaScript, Flask

Internships

SQL Intern - Celebal Technologies (Remote)

Jun 2024 - Aug 2024

- Completed structured SQL training with 3 assignment levels covering joins, subqueries, aggregations and query writing.
- Solved 50 SQL problems from LeetCode SQL50 to strengthen analytical problem-solving and query skills.
- Practiced query optimization using indexing, joins and efficient data retrieval techniques.

Web Development Intern - Nucleon (IIT Jammu)

Jun 2023 - Jul 2023

- Completed a 2-month practical training in HTML, CSS, JavaScript and backend web development.
- Created a full-stack restaurant website with responsive UI, backend form handling and an admin panel.

Projects

HR Analytics Dashboard - Power BI

May 2026

🔗 github.com/Rakshitgupta9/powerbi-hr-analytics-dashboard

- Built an interactive Power BI dashboard analyzing 1,480 HR records to uncover employee attrition trends, workforce demographics and compensation insights.
- Cleaned and transformed HR data using Power Query and developed DAX-driven KPI dashboards with drill-down analytics for 16.12% attrition analysis.

Data Profession Survey Analysis Dashboard - Power BI, DAX, Power Query

April 2026

🔗 github.com/Rakshitgupta9/powerbi-data-profession-survey-dashboard

- Created an interactive Power BI dashboard analyzing 630 survey responses across salary trends, demographics, job satisfaction and programming preferences.
- Cleaned, transformed and modeled survey data using Power Query and DAX measures to create KPI-based reports and actionable insights.

Age-Well Senior Support Portal - Flask, MongoDB, Python

Feb 2025 - May 2025

🔗 github.com/Rakshitgupta9/AgeWell

- Engineered a full-stack platform for senior citizens to manage medicines, expenses, wellness records and community event participation.
- Developed 3 role-based dashboards for seniors, family members and admins with emergency alerts, activity monitoring and expense analytics.
- Enabled linked access for family members to track medicines, expenses and activity updates in real time.

Smart IoT Parking Management System - Python, OpenCV, Flask, SQL

Aug 2024 - Dec 2024

🔗 github.com/Rakshitgupta9/Smart-Parking-Management

- Designed an IoT-enabled parking management system using ESP32-CAM, ultrasonic sensors, OpenCV-based ANPR and SQL-backed vehicle logging.
- Reduced manual vehicle logging through automated vehicle entry, exit and real-time parking occupancy monitoring via a Flask dashboard.
- Implemented automated vehicle identification and database record management for 50%+ efficient parking operations.

Certifications

Python Programming - SWAYAM

Python for Data Science - IBM / Coursera

Data Analysis with Python - freeCodeCamp

Education

Bachelor of Engineering in Computer Science

2021 - 2025

Model Institute of Engineering and Technology (MIET), Jammu - CGPA: 8.48/10

Higher Secondary (Class XII)

2020 - 2021

Kendriya Vidyalaya No. 1, Jammu - 75.4%
